Assistance to the Unemployed • State & Local Fiscal Stabilization*

Prepared by the Offices of

Senator Ron Wyden and Senator Jeff Merkley

A Letter from Senator Merkley and Senator Wyden

Dear Fellow Oregonians,

The nation's economy is at a tipping point. The American economy lost almost 650,000 jobs in February alone and almost 50,000 Americans are losing their homes to foreclosure each week. In Oregon, our unemployment rate is at almost 10%.

In response to this dire situation, we have worked with President Obama to pass the American Recovery and Reinvestment Act, a recovery package that will create 3.5 million jobs for American workers, including 44,000 jobs in Oregon. This legislation is a commitment to creating and maintaining American jobs through targeted funding of job-intensive projects and broad-based tax relief. As we invest in jobs to build infrastructure and develop renewable energy, we're investing in the future of our economy.

To assist Oregonians in understanding how this recovery plan will benefit our state, we have put together this ***Oregon Resource Guide to the American Recovery and Reinvestment Act of 2009***. The guide includes information on many federal programs and funding opportunities available to individuals, communities and businesses in Oregon as a result of the economic recovery package.

As a result of this legislation, Oregon will receive \$1.62 billion in direct aid and \$780 million in additional Medicaid assistance over the next two years. In addition, the state, Oregon localities, and Oregon's private sector will compete for millions of dollars in competitive grants. It is important that we get this information to those who need it so these funds can begin helping Oregonians as quickly as possible.

This resource guide provides a starting point for Oregonians to understand how the ARRA will benefit Oregon and where to go for more information about specific programs. It should not be used as a comprehensive record of how each dollar will be spent, but rather an overview of how the recovery plan will strengthen our economy.

For more information about the ARRA we invite you to visit **recovery.gov**, a web site created by the Obama Administration to inform Americans about where money from the recovery plan is being spent, from states to congressional districts and federal contractors. You can also visit **recovery.oregon.gov** for more information about how state agencies will use stimulus funds to create jobs and get the economy moving in Oregon.

If you have any questions, please contact our offices:

This effort to assist families and create American jobs will not only help us recover, but emerge from this crisis stronger than ever.

Sincerely,

Senator Jeff Merkley

Senator Ron Wyden

TRANSPORTATION

The following information about funding included in the American Recovery and Reinvestment Act of 2009 was compiled by the Offices of Senator Jeff Merkley and Senator Ron Wyden. This document is intended to provide the public with basic information of potential federal assistance and funding opportunities. Those interested in these or similar programs should contact the appropriate federal and state agencies for detailed information. Please note: Not all applicable programs are included below; the following information is subject to change; and additional requirements, restrictions and guidance may apply.

Highway Improvement Programs

\$27.5 billion was included for Highway Infrastructure Investment.

Oregon will receive \$334 million in formula funding.

Administrator:	Oregon Department of Transportation, local governments
Purpose:	For transportation projects including resurfacing and pavement preservation projects, traffic signal system upgrades, bridge projects, transit projects and intelligent transportation systems.
Description:	Funds are distributed by formula, with 30% of the funds within each state being sub allocated to local governments.
Web Site:	www.oregon.gov/ODOT/hwy/economic_stimulus.shtml
To Apply:	<p>The Oregon Transportation Commission also decided to solicit recommendations for remaining or additional funds that flow to ODOT through this program. Applications for these remaining funds were due to ODOT by March 9. Any funds not allocated by the March 18 OTC meeting will be allocated through a separate process at a date to be determined.</p> <p>Oregon Transportation Commission approved a list of “shovel ready” transportation projects from around the state totaling \$122,592,742 on February 27, available at: http://www.oregon.gov/ODOT/HWY/docs/StimulusProjects2009.pdf</p> <p>For questions about the application submission process, call Amy Merckling, 503-986-3450.</p>

Transit Capital Formula Program

\$6.9 billion was included for transit capital assistance grants.

Oregon's will receive \$75.7 million in formula funding.

Oregon's rural areas will receive \$ 14.6 million in formula funding.

Administrator:	Oregon Department of Transportation, transit districts
Type:	Each urbanized area with a population greater than 50,000 will receive a direct allocation of funds from the Federal Transit Administration (FTA). Non-urbanized areas will receive funding through the Oregon Department of Transportation (ODOT) Public Transit Division.

Description:	These funds will be used to purchase buses and equipment needed to provide additional public transportation service and to make improvements to intermodal and transit facilities.
Website:	www.fta.dot.gov/index_9118.html
To Apply:	<p>The state's six urban areas will split the \$61.1 million in funding. Based on ODOT's preliminary calculations, each agency will receive approximately the following amounts:</p> <ul style="list-style-type: none"> • Portland area (Tri-Met and SMART): \$46 million • Lane Transit District: \$6 million • Salem-Keizer Transit: \$5 million • Rogue Valley Transit District: \$2 million • Corvallis: \$1 million • Bend: \$1 million <p>ODOT's Public Transit Division will distribute about \$14 million to rural transit districts.</p> <p>Application instructions and forms are posted on the ODOT Public Transit Division's website available at: http://www.oregon.gov/ODOT/PT/PROGRAMS/arra.shtml Applications must be received by ODOT Public Transit Division (PTD) by March 27, 2009.</p>

Fixed Guideway Modernization

\$750 million was included for transit capital assistance grants.

Oregon will receive \$1.1 million in formula funding.

Administrator:	Federal Transit Administration
Type:	Funds are allocated by a statutory formula to urbanized areas with rail systems that have been in operation for at least seven years.
Purpose:	These funds will be used for capital projects to modernize or improve existing fixed guideway systems, including purchase and rehabilitation of rolling stock, track, line equipment, structures, signals and communications, power equipment and substations, passenger stations and terminals, security equipment and systems, maintenance facilities and equipment, operational support equipment including computer hardware and software, system extensions, and preventive maintenance.

Provision:	Waives the State Grant and Loan Program matching incentive provisions of DERA.
Purpose:	Funding is used to create clean diesel programs that achieve significant reductions in diesel emissions that improve air quality and protect public health.
Description:	Funds technologies to retrofit emission exhaust systems, such as on school buses and other vehicles, replace engines and vehicles, and establish anti-idling programs – 70% of the funding supports nation-wide, competitive grants, the remaining 30% funds grants to states with approved programs.
Website:	http://www.epa.gov/otaq/diesel/
Webform:	http://www.epa.gov/otaq/diesel/ncdc-cmt.htm
To Apply:	There are a variety of competitive grants available for the creation and support of clean diesel programs. Details can be found at http://epa.gov/otaq/eparecovery/ . \$156 million is provided for competitive clean diesel programs. Application information is available at: http://www.epa.gov/ogd/AppKit/application.htm There is also \$20 million in funding for support of emerging technologies in clean diesel. An emerging technology is defined as a device or system that reduces emissions from diesel engines or diesel engine powered vehicles or equipment that has not been certified or verified by EPA or the California Air Resources Board (CARB), but for which an

approvable application and test plan have been submitted for verification. The announcement for funding of the Clean Diesel Emerging Technologies Program is available at: <http://epa.gov/otaq/eparecovery/progmerge.htm>

The creation of innovative financial programs to reduce clean diesel receives \$30 million in the ARRA. Information for applying is available at: <http://epa.gov/otaq/eparecovery/progfinance.htm>

U.S. Army Corps of Engineers - Construction

\$2 billion was included for United States Army Corps of Engineers for construction activities.

Agency:	U.S. Army Corps of Engineers
Description:	Provides public engineering and construction services for navigation, flood and storm protection, ecosystem restoration, environmental protection, and an array of other purposes. Funding included for ongoing projects, not to initiate new projects.
Website:	http://www.usace.army.mil/recovery
Phone:	(503) 808-4510
To Apply:	The only eligible recipient of these funds is the U.S. Army Corps of Engineers. The Corps plans to publish a list of projects funded under this program on March 18.

U.S. Army Corps of Engineers - Maintenance

\$2 billion was included for United States Army Corps of Engineers for maintenance activities.

Agency:	U.S. Army Corps of Engineers
Description:	Provides funding for the operation and maintenance of facilities by the Corps. Work to be accomplished consists of dredging, repair, and operation of structures and other facilities.
Website:	http://www.usace.army.mil/recovery
Phone:	(503) 808-4510
To Apply:	The only eligible recipient of these funds is the U.S. Army Corps of Engineers. The Corps plans to publish a list of projects funded under this program on March 18.

Bureau of Reclamation

\$1 billion was included for the Bureau of Reclamation for water reclamation and reuse projects.

Agency:	Bureau of Reclamation Department of the Interior
Description:	Provides funding for water reuse projects and construction of rural water projects that will provide clean, reliable drinking water to rural areas and ensure adequate water supplies to western localities. Work to promote water conservation, improve energy efficiency, address aging water infrastructure, and meet endangered species requirements through improvements such as fish screens and fish passage projects.

ENERGY

Energy Efficiency • Renewable Energy • Energy Consumption • Research & Development

The following information about funding included in the American Recovery and Reinvestment Act of 2009 was compiled by the Offices of Senator Jeff Merkley and Senator Ron Wyden. This document is intended to provide the public with basic information of potential federal assistance and funding opportunities. Those interested in these or similar programs should contact the appropriate federal and state agencies for detailed information. Please note: Not all applicable programs are included below; the following information is subject to change; and additional requirements, restrictions and guidance may apply.

State Energy Program

\$3.1 billion was included for the State Energy Program.

Oregon will receive \$49.1 million in formula funding.

Administrator:	Oregon Department of Energy (ODOE)
Description:	States use grants to address energy priorities and program funding to adopt emerging renewable energy and energy efficiency technologies.
Website:	www.oregon.gov/ENERGY
Webform:	http://www.oregon.gov/ENERGY/contact_us.shtml
Phone:	ODOE: 503-378-4040
Helpful Link:	http://apps1.eere.energy.gov/state_energy_program/projects_all_by_state.cfm/state=OR
To Apply:	Application information is available at: www.oregon.com/energy

Weatherization Assistance Program

\$5 billion was included for the Weatherization Assistance Program. Provisions also expand the eligibility of low-income households for the Weatherization Assistance Program and increase the funding assistance level per dwelling (from \$2,500 per dwelling to \$6,500)

Oregon will receive \$40 million in formula funding.

Administrator:	Oregon Housing and Community Services (OHCS)
Purpose:	To assist low-income families reduce their energy bills by making their homes more energy efficient.
Description:	Provides energy efficiency measures in the homes of qualifying homeowners free of charge.
Web Site:	http://www.ohcs.oregon.gov/OHCS/SOS_Low_Income_Weatherization_Assistance_Oregon.shtml
Phone:	OHCS: 503-986-2000

Energy Efficiency and Conservation Block Grant (EECBG)

\$3.2 billion was included for EECBG

Office:	Energy Efficiency and Renewable Energy (EERE)
Agency:	U.S. Department of Energy
Purpose:	To reduce fossil fuel emissions, decrease overall energy consumption, improve energy efficiency in the transportation, building, and other energy consuming sectors of the economies of eligible entities.
Description:	Assists states and local governments in implementing strategies to reduce fossil fuel emissions created as a result of activities within the jurisdictions of the eligible entities and reduce the total energy use. Activities eligible to receive funding include: conducting residential and commercial building energy audits; establishing financial incentives programs for energy efficiency improvements; grants to non-profits organizations to perform energy efficiency retrofits; developing/implementing programs to conserve energy used in transportation; developing and implementing building codes and inspections services to promote building energy efficiency; installing light emitting diodes (LEDs); and developing, implementing, and installing on or in any government building onsite renewable energy technology that generates electricity from renewable sources.

To Apply:	Application information is available at: http://apps1.eere.energy.gov/wip/block_grants.cfm

Energy Efficiency and Renewable Energy (EERE)

\$16.8 billion was included for EERE

Agency:	U.S. Department of Energy
Programs:	Ten energy programs, including the Biomass Program; Building Technologies Program; Federal Energy Management Program; Geothermal Technologies Program; Hydrogen, Fuel Cells & Infrastructure Program; Industrial Technologies Program; Solar Energy Technologies Program; Vehicle Technologies; Wind & Hydropower Technologies Program; and Weatherization & Intergovernmental Program.
Activities:	EERE's programs conduct activities in partnership with the private sector, state and local government, DOE national laboratories, and universities.
OR Profile:	http://apps1.eere.energy.gov/states/state_specific_information.cfm/state=OR

Biomass Program

\$800 million to be dedicated to projects related to biomass.

Office:	Energy Efficiency and Renewable Energy (EERE)
Agency:	U.S. Department of Energy
Purpose:	For research, development and demonstration for converting biomass resources to biofuels.
Website:	www.eere.energy.gov/biomass
Email:	eere_biomass@ee.doe.gov
Helpful Link:	http://www1.eere.energy.gov/biomass/financial_opportunities.html
To Apply	Application information is available at: http://www1.eere.energy.gov/biomass/financial_opportunities.html

Geothermal Technologies Program

\$400 million to be dedicated for geothermal activities

Office:	Energy Efficiency and Renewable Energy (EERE)
Agency:	U.S. Department of Energy
Activities:	Research, development and demonstration efforts that emphasize the advancement of enhanced geothermal systems.
Phone:	(877) 337-3463 (EERE Information Center)
Helpful Link:	http://www1.eere.energy.gov/geothermal/financial.html
To Apply:	When applications begin to be accepted, information will be available at: www.eere.energy.gov/geothermal and www.grants.gov

Advanced Battery Manufacturing

\$2 billion was included for Advanced Battery Manufacturing grants to support the manufacturing of advanced vehicle batteries and components

Administrator:	Energy Efficiency and Renewable Energy (EERE)
Agency:	U.S. Department of Energy
Activities:	For the manufacturing of advanced batteries and components; and to provide facility funding to manufacturers of advanced battery systems and vehicle batteries that are produced in the United States, including advanced lithium ion batteries, hybrid electrical systems, component manufacturers, and software designers.
Type:	Competitive Grants
Website:	www.eere.energy.gov

Phone:	(877) 337-3463 (EERE Information Center)
To Apply	Competitive grant programs will be announced in coming days. Updates are available at: www.eere.energy.gov

Alternative Fueled Vehicle Pilot Grant Program

\$300 million was included for the Alternative Fueled Vehicles Pilot Grant Program

Administrator:	Clean Cities Program Energy Efficiency and Renewable Energy (EERE)
Agency:	U.S. Department of Energy
Purpose:	To establish a grant program through the DOE Clean Cities Program to encourage the use of plug-in electric drive vehicles or other emerging electric vehicle technologies.
Recipients:	State governments, local governments, metropolitan transportation authorities, air pollution control districts, and private or nonprofit entities.
Activities:	May be used for the acquisition of alternative fueled vehicles, fuel cell vehicles or hybrid vehicles, including buses for public transportation and ground support vehicles at public airports. The installation or acquisition of infrastructure necessary to directly support an alternative fueled vehicle, fuel cell vehicle, or hybrid vehicle project funded by the grant is also eligible.
Type:	Competitive Grants
OR Profile:	http://www.afdc.energy.gov/cleancities/progs/coordinators.php

Transportation Electrification

\$400 million for Transportation Electrification grant projects.

Office:	Energy Efficiency and Renewable Energy (EERE)
Agency:	U.S. Department of Energy
Purpose:	To implement a grant program for qualified electric transportation projects that reduce emissions, including shipside electrification of vehicles, truck stop electrification, airport ground support equipment and cargo handling equipment.
Recipients:	States, local governments, and metropolitan transportation authorities
Type:	Competitive Grants
Website:	www.eere.energy.gov
Phone:	(877) 337-3463 - EERE General Information Center
To Apply:	Call (877) 337-3463 for the EERE General Information Center.

Energy Efficient Appliance Rebate Program and Energy Star Program

\$300 million was included for the Energy Efficient Appliance Rebate program and the Energy Star Program.

Office:	Energy Efficiency and Renewable Energy (EERE)
Agency:	U.S. Department of Energy
Description:	Approximately 15 states have appliance rebate programs currently operating to incentivize the purchase of energy efficient appliances. This program would add federal funds to increase the effectiveness of these programs and to encourage the remaining states to adopt similar programs. This will speed the rollout of appliances that will be able to take advantage of smart meters and spur consumer purchases of smart and energy-efficient appliances.
Administrator:	Oregon Department of Energy (ODOE)
Website:	http://apps1.eere.energy.gov/states/alternatives/rebates.cfm http://www.energystar.gov/
Phone:	(877) 337-3463 (EERE General Information Center) (888) 782-7937 (ENERGY STAR Hotline) (503) 378-4040 (Oregon Department of Energy)
To Apply:	Information about Oregon's appliance efficiency tax credits is available at: http://www.oregon.gov/ENERGY/CONS/RES/tax/appliances.shtml

Smart Grid Investment Program

\$4.5 billion was included for the Smart Grid Investment Program.

Office:	Electricity Delivery and Energy Reliability
Agency:	U.S. Department of Energy
Purposes:	To modernize the electric grid, enhance security and reliability of the energy infrastructure, energy storage research, development, demonstration and deployment, and facilitate recovery from disruptions to the energy supply, and authorized purposes.
Activities:	For research and development, pilot projects, and federal matching funds for the Smart Grid Investment Program to meet the goal of a modern electric grid, enhance security and reliability of energy infrastructure, and facilitate recovery from disruptions to the energy supply. The Office of Electricity Delivery and Energy Reliability projects are planned and implemented in concert with partners from other Federal programs; electric utilities; equipment manufacturers; regional, state, and local agencies; national laboratories; and universities.
Website:	www.oe.energy.gov www.oe.energy.gov/smartgrid.htm
Phone:	(202) 586-1411 (Office of Electricity, Delivery and Energy Reliability)

To Apply: This program will take longer than some others to develop, as the Department of Energy develops new rules to create the smart grid. Updates about the program are available at: www.doe.energy.gov.

Fossil Energy Research and Development Program

\$3.4 billion was included for Fossil Energy Research and Development Program

Office:	Office of Fossil Energy
Agency:	U.S. Department of Energy
Description:	Research and Development programs include pollution control innovations for traditional power plants, including mercury reduction; improved gasification technologies; advanced combustion systems; development of stationary power fuel cells; improved turbines for future coal-based combined cycle plants; and creation of a portfolio of technologies that can capture and permanently store greenhouse gases.
Activities:	Research and development (R&D) partnerships, cooperative R&D agreements, financial assistance, and contractual arrangements with universities and the private sector.
OR Profile:	http://fossil.energy.gov/programs/projectdatabase/stateprofiles/2004/Oregon.html
Phone:	(202) 586-6660 (Office of Fossil Energy)
To Apply:	The Department of Energy has issued four solicitations for projects with its ARRA funding. Information about this program is available at: http://www.fossil.energy.gov/news/techlines/2009/09013-DOE_Issues_Notice_of_Intent.html

Science Program

\$1.6 billion was included for the science program

Office:	Office of Science
Agency:	U.S. Department of Energy
Description:	The Office of Science manages fundamental research programs in basic energy sciences, biological and environmental sciences, and computational science.
OR Profile:	http://www.sc.doe.gov/SC_Funding/or/or.htm

Advanced Research Projects Agency (ARPA-E)

\$400 million included for the Advanced Research Projects Agency (ARPA-E).

Agency:	U.S. Department of Energy
Purpose:	To support high-risk, high-payoff research to accelerate the innovation cycle for both traditional and alternative energy sources and energy.
Background:	In 2007, Congress approved (PL 110-69) the creation of the Advanced Research Projects Agency-Energy (ARPA-E). Modeled after the Defense Advanced Research Projects Agency (DARPA), ARPA-E will develop and deploy advanced energy technologies by identifying and promoting revolutionary advances in fundamental sciences, translating those discoveries into technological innovations, and accelerating transformational technological advances in areas that industry by itself is not likely to undertake.
Eligibility as Authorized:	Awards to institutions of higher education, companies, research foundations, trade and industry research collaborations, or consortia of such entities, which may include federally-funded research and development centers.

Build America Bonds

Agency:	Internal Revenue Service
Description:	Will provide State and local governments with the option of issuing a tax credit bond instead of a tax-exempt governmental obligation bond. Because the market for tax credits is currently small given current economic conditions, the bill would allow the State or local government to elect to receive a direct payment from the Federal government equal to the subsidy that would have otherwise been delivered through the Federal tax credit for bonds.

Phone:	Toll Free: 1-800-829-1040
To Apply:	Application available at: http://www.irs.gov/pub/irs-pdf/f8038cp.pdf

Build America Bonds: Recovery Zone Bonds

\$10 billion has been allocated for Recovery Zone Bonds

Agency:	Internal Revenue Service
Description:	The bill would authorize \$10 billion in tax credit recovery zone economic development bonds and \$15 billion in tax-exempt recovery zone facility bonds. These bonds could be issued during 2009 and 2010. Each state would receive a share of the national allocation based on that state's job losses in 2008 as a percentage of national job losses in 2008 (each state will receive a minimum allocation of these bonds). These allocations would be sub-allocated to local municipalities. Municipalities receiving an allocation of these bonds would be permitted to use these bonds to invest in infrastructure, job training, education, and economic development in areas within the boundaries of the State, city or county (as the case may be) that has significant poverty, unemployment or home foreclosures.

Qualified School Construction bonds

\$22 billion can be allocated between 2009 and 2010

Agency:	Internal Revenue Service
Description:	The bill creates a new category of tax credit bonds for the construction, rehabilitation, or repair of public school facilities or for the acquisition of land on which a public school facility will be constructed. There is a national limitation on the amount of qualified school construction bonds that may be issued by State and local governments of \$22 billion (\$11 billion allocated initially in 2009 and the remainder allocated in 2010). There is a national limitation on the amount of qualified school construction bonds that may be issued by Indian tribal governments of \$400 million (\$200 million allocated initially in 2009 and the remainder allocated in 2010).

Extension and Increase in Authorization for Qualified Zone Academy Bonds (QZABs).

\$1.4 billion can be allocated between 2009 and 2010

Agency:	Internal Revenue Service
Description:	The bill would allow an additional \$1.4 billion of QZAB issuing authority to State and local governments in 2009 and 2010, which can be used to finance renovations, equipment purchases, developing course material, and training teachers and personnel at a qualified zone academy. In general, a qualified zone academy is any public school (or academic program within a public school) below college level that is located in an empowerment zone or enterprise community and is designed to cooperate with businesses to enhance the academic curriculum and increase graduation and employment rates. QZABs are a form of tax credit bonds which offer the holder a Federal tax credit instead of interest.

Modify Speed Requirement for High-Speed Rail Exempt Facility Bonds

Agency:	Internal Revenue Service
Description:	Under current law, States are allowed to issue private activity bonds for high-speed rail facilities. Under current law, a high-speed rail facility is a facility for the transportation of passengers between metropolitan areas using vehicles that are reasonably expected to operate at speeds in excess of 150 miles per hour between scheduled stops. The bill would allow these bonds to be used to develop rail facilities that are used by trains that are capable of attaining speeds in excess of 150 miles per hour.

To Apply:	Please visit: http://www.recovery.gov/

Tribal Economic Development bonds

Agency:	Internal Revenue Service
Description:	Under current law, tribal governments are limited in their ability to issue tax-exempt bonds. Projects funded by bonds issued by tribal governments must satisfy an “essential governmental function” requirement. This requirement is not imposed on projects funded by bonds issued by State and local governments, and can limit the ability of tribal governments to use tax-exempt bonds for economic development. The bill would temporarily allow tribal governments to issue \$2 billion in tax-exempt bonds for projects without this restriction in order to spur economic development on tribal lands, and would require the Secretary of the Treasury to study whether this restriction should be repealed on a permanent basis.
